

EN BATTERY POWERED CARBON MONOXIDE ALARM

Main Features: Long Life Electro-Chemical Sensor Self Test - Easy Installation - Test / Reset Button - Low Battery Warning - Supplied With Wall Plugs & Screws - Cannot Be Fitted With Battery Missing

OPERATING YOUR CO ALARM Normal Operation When no carbon monoxide is present, the green light flashes every 45 sec. and is an indication that your alarm is powered and functional.

TESTING YOUR CO ALARM It is recommended that you test your CO alarm once a month to ensure the alarm is working correctly.

DISPOSAL Correct Disposal of This Product (Waste Electrical & Electronic Equipment) (Applicable in the European Union and other European countries with separate collection systems)

MAINTENANCE The devices are maintenance-free, so never open them. The guarantee becomes void when you open the appliance.

GENERAL SAFETY Installing a CO-detector is only the first step towards safe living conditions. Make sure that you and other members of your household are familiar with the cause and effect of carbon monoxide poisoning and how to operate a CO-detector:

WARRANTY This carbon monoxide alarm is designed for indoor use only. Do not expose to rain or moisture. It will not protect against the risk of carbon monoxide poisoning when the battery has drained. Do not open or tamper with the alarm as this could cause malfunction.

DE BATTERIE-BETRIEBENER KOHLENMONOXID-ALARM

Eigenschaften: Langlebiger elektro-chemischer Sensor - Einfache Installation - Test- / Rückstelltaste - Batterie-Kontrollanzeige - Lieferung einschließlich Schrauben und Dübeln - Kann nicht ohne Batterie montiert werden
